

1, Types of mediums ?

There are 3 types of Mediums :

- 1) Radio frequency. - Also known as Wireless network. ex: ShareIt, etc.
- 2) Electrical Signal. - Also known as Production network. ex: Copper cable.
- 3) Light Signal. - Also known as Backbone area network. ex: Fiber optics.

2, Write down switch 8-pins ?

1 + R

2 - R

3 + T

4 + V

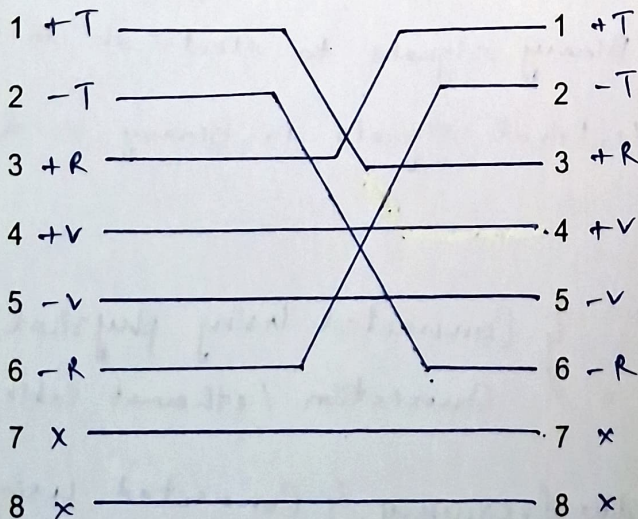

5 - V

6 - T

7 X

8 X

3, Connect utp cable between two devices

4, Explain AUTO MDIX ?

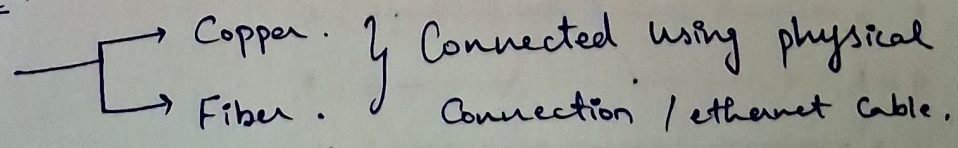

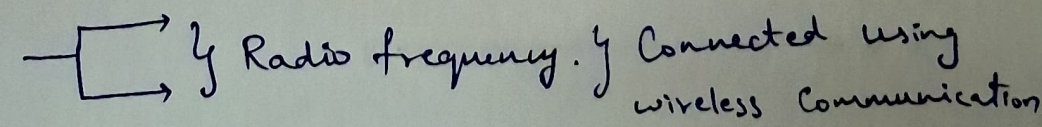

Automatic Medium-Dependent Interface is technology used by NIC to automatically detect the type of cable it is and changes the port accordingly. i.e., changes the order of Input & o/p wires in a cable.

5, Explain POE injector ?

6, Explain POE switch ?

7, Explain types of nic & function ?

NIC → Network Interface Card

- It Contains IP address & MAC Address.
- It is used to Convert Binary signals to electrical in the transmitting part and Electrical signals to Binary in the receiving part.
- Types of NIC :
 - (i) Wired 
 - Copper
 - Fiber
 - (ii) Wireless 
 - Radio frequency
